HAZARD CONTROL TECHNOLOGIES LTD CUSTOMER SERVICE POLICY

Intent

This Customer Service Policy formalises our commitment to providing the best possible service to our customers within the Kenyan market. As specialists in fire safety supply, occupational safety and health (OSH) audits, and risk assessment services, we recognize that our customers rely on us for their safety and compliance needs. The aims of our Customer Service Policy are to:

- *Make transactions and service delivery easier for our customers and clients.*
- *Provide customers and clients with a consistent, reliable level of customer care essential for safety-critical industries.*
- *Provide clear written guidelines to all staff and contractors.*
- *Provide clarity around complaints and dispute resolution processes.*
- *Support the vision, goals, and mission of Hazard Control Technologies LTD as a leader in safety solutions in Kenya.*

Scope

This policy and associated procedures apply to all directors, staff, subcontractors, and representatives working for or on behalf of ***Hazard Control Technologies LTD*** *in Kenya.*

Policy

Hazard Control Technologies LTD *prioritizes effective, trustworthy service and the respectful, professional handling of all customer interactions. Given the critical nature of our work in fire safety, OSH, and risk assessment, we commit to the following principles and practices in customer service.*

Friendly, Professional, and Safety-Conscious Interactions

We will:

- *Speak respectfully and professionally to customers at all times, understanding the urgent nature of safety concerns.*
- *Listen carefully and allow customers to fully explain their safety needs, compliance issues, or incident circumstances.*

- *Convey expert knowledge of our business, including fire safety products, OSH audit procedures, Kenyan safety regulations, and risk assessment methodologies.*
- *Respect customer privacy and confidentiality, in accordance with the **Kenya Data Protection Act, 2019**, and handle all sensitive safety and business information with utmost security.*

Accurate and Consistent Information About Services and Products

We take active measures to ensure that we:

- *Always communicate factually, honestly, and accurately regarding our fire safety equipment specifications, audit scopes, risk assessment findings, and service capabilities.*
- *Keep all publicly available information—including service catalogs, compliance certificates, and safety guidelines—updated and relevant to Kenyan standards and regulations.*
- *Provide a clear, accessible explanation of our complaints and dispute resolution process.*

Prompt, Efficient, and Reliable Services

To uphold our commitment to safety and reliability, we:

- *Strive to address all customer enquiries—whether related to product availability, audit scheduling, or emergency support—within a clearly communicated and reasonable timeframe.*
- *Regularly review customer service performance metrics and feedback, incorporating findings into staff training, process improvements, and safety protocol updates.*

Service Standards

The following service standards apply when communicating with customers in Kenya:

Telephone

- *Management and staff will answer the phone within **3 to 4 rings** during business hours.*
- *When answering, staff will identify: **"Hazard Control Technologies LTD, [Staff Name] speaking."***
- *If the required person is unavailable, staff will offer to take a detailed message, confirming contact information and the nature of the inquiry.*
- *Messages will be passed to the relevant person via email or SMS within **1 hour** during business hours.*

Email

- *All staff will use a professional email signature containing full name, title, and company contact details.*
- *Out-of-office notifications will be activated when away for more than one business day, providing an alternative contact.*
- *Customer emails will receive an initial acknowledgment within **4 business hours** and a detailed response within **24 business hours**.*
- *All written communication will use clear, professional language appropriate for technical and safety-related discussions.*

Face-to-Face & On-Site Interactions

- *Staff will present themselves professionally, wearing company identification and appropriate safety attire when on client sites.*
- *Staff will practice active listening, allowing the customer to fully explain their situation before responding.*
- *All customer inquiries and complaints will be handled respectfully, with an emphasis on problem-solving and safety assurance.*

Website & Digital Presence

- *Management will ensure the company website is regularly updated with accurate information on services, products, certifications, and contact details.*
- *A dedicated **Contact Us** page will include a contact form, phone numbers, email addresses, and a physical location map.*
- *Website inquiries submitted via forms will receive an automated acknowledgment and a full response within **24 business hours**.*
- *The company's **Privacy Policy**, detailing compliance with the Kenya Data Protection Act, will be easily accessible on the website.*

Social Media & Digital Channels

- *Enquiries received via social media (Facebook, LinkedIn, etc.) or digital platforms will be acknowledged within **6 hours** and addressed fully within **24 business hours**.*
- *Responses will be accurate, helpful, and consistent with the company's professional and safety-focused brand.*

Complaints Handling

We acknowledge that resolving customer complaints effectively is essential to maintaining trust and safety standards. Our complaints process is transparent, accessible, and fair.

Complaints Handling Process

Initial Complaint

- *Listen respectfully, fairly, and impartially to the customer.*
- *If the complaint is received in writing, acknowledge receipt within **24 hours**.*
- *Record the complaint in writing with all relevant details. Anonymous complaints may not be actioned unless they pertain to a serious safety issue.*
- *Attempt to resolve the complaint at the first point of contact where possible.*
- *If unresolved, escalate to a supervisor or manager immediately.*
- *Staff have the right to a safe work environment and will be protected from abusive or aggressive behaviour.*

Escalated Complaint

- *The staff member must fully brief the supervisor/manager on all details.*
- *Management will keep the customer informed of steps being taken to resolve the issue.*
- *Management will attempt to resolve the escalated complaint promptly and professionally.*

Complaint Resolution

- *Management will advise the customer of the outcome and explain the decision clearly.*
- ***Hazard Control Technologies LTD** will rectify errors willingly and take corrective action to prevent recurrence.*
- *Where relevant, management will inform the customer of any process improvements implemented as a result of their feedback.*

External Resolution Process

*If a complaint cannot be resolved internally, customers may be advised to contact the **Kenya Bureau of Standards (KEBS)**, the **National Environmental Management Authority (NEMA)** for environmental safety issues, or the **Consumer Protection Tribunal** under the **Competition Authority of Kenya**.*

Responsibility and Review

*This Customer Service Policy is the responsibility of the **Management of Hazard Control Technologies LTD**. This policy was last updated on **April 14, 2024** and will be reviewed annually or as required by changes in Kenyan law, safety regulations, or business operations.*

POLICY ADMINISTRATION AND ACKNOWLEDGMENT

This Customer servicee Policy is subject to periodic review and updates as necessary. It is the responsibility of all employees to familiarize themselves with this Policy and comply with its provisions. Violations may result in disciplinary action, up to and including termination of employment.

Employees will be required to acknowledge receipt and understanding of this policy.
