OUR COMPANY OVERVIEW

Hazard Control Technologies Limited was founded in **2011**.

We are a professional occupational safety and fire safety company dedicated to providing reliable, compliant and cost-effective safety solutions to organizations across various sectors.

We specialize exclusively in workplace safety, fire prevention, fire protection systems, and statutory compliance in line with the Occupational Safety and Health Act (OSHA), 2007 and Directorate of Occupational Safety and Health Services (DOSHS) requirements.

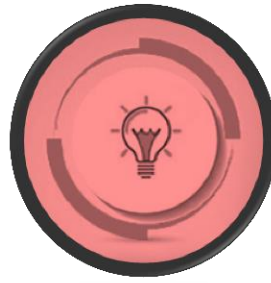

Our company was established with the sole purpose of helping organizations create safer working environments, reduce risks, and comply with legal safety obligations. Through experienced personnel, structured systems and practical solutions, we have positioned ourselves as a dependable partner in safety management.

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

Our Vision

To become a leading safety solutions company in Eastern Africa, providing excellence in occupational safety, fire safety and training services.

Our Mission

To deliver professional occupational safety and fire safety solutions through competent personnel, quality systems and compliance-driven service delivery, while promoting a strong safety culture among our clients.

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

Our

Core Values

Professionalism

We uphold high standards of professionalism in all our engagements by deploying trained, qualified and competent safety professionals to deliver expert services.

Integrity & Ethics

We conduct our business with honesty, transparency and strict adherence to legal and ethical standards.

Customer Commitment

We are dedicated to exceeding client expectations through dependable service delivery, clear communication and strong after-service support.

Why Choose Us?

Qualified Safety Professionals

Our team consists of skilled safety practitioners with hands-on experience in DOSH, NEMA ,OSH and fire safety compliance.

Regulatory Compliance Focus

All our services are aligned with OSHA 2007, Legal Notice No. 59 of 2007 and other applicable safety regulations.

Reliable & Cost-Effective Solutions

We provide practical safety solutions that balance compliance, effectiveness and affordability.

WE ARE APPROVED BY

**Directorate of Occupational Safety
and Health Services**

**NATIONAL
CONSTRUCTION
AUTHORITY**

Hazard Control Technologies Limited operates in compliance with applicable occupational safety, fire safety, health, and environmental regulations within Kenya and internationally recognized industry standards. The company is committed to maintaining high levels of professionalism, regulatory compliance, and operational excellence in all its services.

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

Occupational Safety & Health (OSH) Audits and Training

We provide comprehensive OSH services aimed at ensuring safe and healthy workplaces, including:

- Occupational Safety & Health Audits (DOSH compliant)
- Risk Assessments (RA)
- Development of Safety Policies and Procedures
- Workplace Safety Inspections
- All services are conducted in line with the Occupational Safety and Health Act, 2007.

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

Fire Safety Audits & Compliance

We carry out detailed fire safety audits and compliance assessments to help organizations prevent fire incidents and meet statutory requirements. Our services include:

- ✓ Fire Safety Audits
- ✓ Fire Risk Assessments
- ✓ Review of Fire Safety Layouts and Evacuation Plans

These services are conducted in accordance with OSHA 2007 and Fire Risk Reduction Rules (Legal Notice No. 59 of 2007).

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

Fire safety Training

We offer practical, hands-on safety training programs designed to build awareness, competence and preparedness among employees, including:

- ✓ Basic Fire Fighting Training
- ✓ Fire Warden Training
- ✓ Fire Marshal Training
- ✓ First Aid Training
- ✓ OSH Awareness Training
- ✓ Risk Assessment Training

We also conduct fire drills to train staff on proper evacuation procedures and emergency response actions during fire outbreaks.

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

Fire and Safety Equipment Supply & Maintenance

We supply, install and maintain essential fire safety equipment to ensure readiness and compliance, including:

- Fire Extinguishers (CO₂, DCP, Foam, Water)
- Fire Alarm Systems
- PPES
- Smoke & Heat Detectors
- Fire Hose Reels and Accessories

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

Fire Safety Maintenance Contracts

Hazard Control Technologies Limited provides professional **Fire Equipment Servicing, Inspection, Maintenance, and Annual Service Contracts** to ensure firefighting systems and equipment remain fully operational, compliant, and ready for emergency use at all times.

Our services are carried out by trained and competent technicians in accordance with applicable fire safety standards, manufacturer recommendations, and regulatory requirements.

Our Services Include

We offer inspection, testing, servicing, refilling, repair, and maintenance of:

- ✓ Fire Extinguishers
- ✓ Hose Reels
- ✓ Fire Hydrants
- ✓ Fire Alarm Systems
- ✓ Smoke and Heat Detectors
- ✓ Fire Blankets
- ✓ Sprinkler Systems
- ✓ Emergency Lighting Systems
- ✓ Fire Suppression Systems
- ✓ Fire Signage and Safety Equipment

Fire Extinguisher Servicing

- ✓ Our extinguisher servicing includes:
- ✓ Pressure testing and inspection
- ✓ Refilling and recharging
- ✓ Replacement of damaged parts
- ✓ Hose and nozzle inspection
- ✓ Weight verification
- ✓ Safety seal replacement
- ✓ Tagging and certification

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

First Aid Training (Workplace First Aiders)

Our First Aid Training equips designated staff with essential lifesaving skills to respond effectively to workplace injuries and medical emergencies before professional medical assistance arrives. Training covers:

- Emergency response procedures
- Bleeding control and wound management
- Burns and scalds management
- Fractures and soft tissue injuries
- Casualty handling and basic life support

Training is aligned with OSHA 2007 and DOSH workplace safety requirements and NITA.

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

Fire safety exercise and Fire Drills

Hazard Control Technologies Limited provides professional Fire Drill Training and Emergency Evacuation Services aimed at preparing organizations, employees, and occupants to respond effectively during fire emergencies and other evacuation situations.

Our fire drill programs are designed to enhance emergency preparedness, improve response coordination, and ensure compliance with occupational safety and fire safety regulations.

Objectives of Fire Drills

The fire drill program aims to:

- ✓ Test emergency preparedness procedures
- ✓ Improve occupant response during emergencies
- ✓ Evaluate evacuation effectiveness and response time
- ✓ Enhance coordination among emergency response teams
- ✓ Promote fire safety awareness within the workplace
- ✓ Identify gaps in emergency response systems

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

Environmental audit

Hazard Control Technologies Limited offers professional **Environmental Audit Services** aimed at helping organizations assess, monitor, and improve their environmental performance while ensuring compliance with environmental laws and regulations.

Our environmental audits are conducted in accordance with the Environmental Management and Coordination Act (EMCA) and guidelines issued by the National Environment Management Authority (NEMA).

Purpose of the Environmental Audit

The audit is designed to:

- ✓ Evaluate environmental compliance status
- ✓ Identify environmental risks and impacts
- ✓ Assess effectiveness of environmental management practices
- ✓ Promote sustainable and environmentally responsible operations
- ✓ Recommend corrective and preventive measures

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance

Work at height training

Hazard Control Technologies Limited provides professional Work at Height Training designed to equip employees and organizations with the knowledge and practical skills required to safely perform tasks at elevated work areas while minimizing the risk of falls and related accidents. The training is conducted in compliance with occupational safety and health requirements and industry best practices to ensure a safe working environment for personnel involved in construction, maintenance, installation, warehousing, telecommunications, and other height-related operations.

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance
