About Us

Hazard Control Technologies Limited is a professional occupational safety and fire safety company dedicated to providing reliable, compliant and cost-effective safety solutions to organizations across various sectors. We specialize exclusively in workplace safety, fire prevention, fire protection systems, and statutory compliance in line with the Occupational Safety and Health Act (OSHA), 2007 and Directorate of Occupational Safety and Health Services (DOSH) requirements.
Our company was established with the sole purpose of helping organizations create safer working environments, reduce risks, and comply with legal safety obligations. Through experienced personnel, structured systems and practical solutions, we have positioned ourselves as a dependable partner in safety management.

Our Vision

To become a leading safety solutions company in Eastern Africa, providing excellence in occupational safety, fire safety and training services.

Our Mission

To deliver professional occupational safety and fire safety solutions through competent personnel, quality systems and compliance-driven service delivery, while promoting a strong safety culture among our clients.

Our Core Values

Professionalism

We uphold high standards of professionalism in all our engagements by deploying trained, qualified and competent safety professionals to deliver expert services.

Integrity & Ethics

We conduct our business with honesty, transparency and strict adherence to legal and ethical standards.

Customer Commitment

We are dedicated to exceeding client expectations through dependable service delivery, clear communication and strong after-service support.

Why Choose Us

Qualified Safety Professionals

Our team consists of skilled safety practitioners with hands-on experience in DOSH, OSH and fire safety compliance.

Regulatory Compliance Focus

All our services are aligned with OSHA 2007, Legal Notice No. 59 of 2007 and other applicable safety regulations.

Reliable & Cost-Effective Solutions

We provide practical safety solutions that balance compliance, effectiveness and
affordability.

Our services

Occupational Safety & Health (OSH) Services

We provide comprehensive OSH services aimed at ensuring safe and healthy workplaces, including:

- Occupational Safety & Health Audits (DOSH compliant)
- Risk Assessments (RA)
- Development of Safety Policies and Procedures
- Workplace Safety Inspections
- All services are conducted in line with the Occupational Safety and Health Act, 2007.

Fire Safety Audits & Compliance

We carry out detailed fire safety audits and compliance assessments to help organizations prevent fire incidents and meet statutory requirements. Our services include:
Fire Safety Audits
Fire Risk Assessments
Review of Fire Safety Layouts and Evacuation Plans
These services are conducted in accordance with OSHA 2007 and Fire Risk Reduction Rules (Legal Notice No. 59 of 2007).

Fire safety Training & Fire Drills

We offer practical, hands-on safety training programs designed to build awareness, competence and preparedness among employees, including:
Basic Fire Fighting Training
Fire Warden Training
Fire Marshal Training
First Aid Training
OSH Awareness Training
Risk Assessment Training
We also conduct fire drills to train staff on proper evacuation procedures and emergency response actions during fire outbreaks.

Fire Safety Equipment Supply & Maintenance

We supply, install and maintain essential fire safety equipment to ensure readiness and compliance, including:

- Fire Extinguishers (CO_2, DCP, Foam, Water)
- Fire Alarm Systems
- Smoke & Heat Detectors
- Fire Hose Reels and Accessories

Fire Safety Maintenance Contracts

We provide quarterly and bi-annual fire safety maintenance services to ensure all fire safety equipment remains functional and compliant with OSHA 2007 and DOSH inspection requirements.

First Aid Training (Workplace First Aiders)

Our First Aid Training equips designated staff with essential lifesaving skills to respond effectively to workplace injuries and medical emergencies before professional medical assistance arrives. Training covers:

- Emergency response procedures
- Bleeding control and wound management
- Burns and scalds management
- Fractures and soft tissue injuries
- Casualty handling and basic life support

Training is aligned with OSHA 2007 and DOSH workplace safety requirements.

Hazard Control Technologies Limited is committed to promoting a strong safety culture, protecting lives and property, and supporting organizations in achieving full safety compliance
