HAZARD CONTROL TECHNOLOGIES LTD

ANTI-BRIBERY AND ANTI-CORRUPTION PREVENTION POLICY

2026

1. POLICY STATEMENT

Hazard Control Technologies Limited ("the Company") is committed to conducting all its activities in fire safety audits, fire risk assessments, fire equipment supply, installation, inspection, testing, maintenance, occupational safety and health (OSH) services, and safety consultancy with the highest standards of integrity, transparency, professionalism, and accountability.

The Company adopts a zero-tolerance approach to bribery, corruption, facilitation payments, fraud, kickbacks, and unethical conduct in all its business dealings.

This Policy is issued in compliance with the Kenya Anti-Corruption and Economic Crimes Act (ACECA), and applicable local and international regulations

2. LEGISLATIVE AND ADMINISTRATIVE REQUIREMENTS

This policy takes recognition of other existing Government legislations that are geared towards fighting fraud and corruption. They include.

- The Constitution of Kenya 2010
- Anti-Corruption and Economic Crimes Act, 2003.
- Public Officers Ethics Act, 2003.
- Public Procurement and Disposal Act 2015, and Public Procurement and Disposal Regulations, 2020.
- Public Financial Management Act, 2012.
- Employment Act, 2007.
- Hazard control technologies Human Resource Policies and Procedures Manual.
- Hazard control technologies Service Delivery Charter.
- Any other relevant laws and policies.

3. SCOPE

This Policy applies to all directors, managers, employees, technicians, consultants, auditors, interns, agents, suppliers of safety equipment, contractors, and any third parties acting on behalf of the Company.

4. DEFINITION

The "Anti-corruption and Economic Crimes Act 2003" describes "corruption" as an offence under any of the provisions of sections 39 to 44, 46 to 47 of the same Act, bribery, fraud,or an offence involving dishonesty in connection with any tax, rate or impost levied under any Act or under any written law relating to elections of persons to public office.

The following actions are strictly prohibited:

- Offering, giving, receiving, or soliciting bribes
- Issuing false or misleading fire or OSH audit reports
- Requesting unofficial payments to influence inspections or approvals
- Offering inducements to regulators, inspectors, or clients
- Accepting kickbacks from safety equipment suppliers
- Manipulating procurement or supplier selection processes

6. Gifts and Hospitality

Gifts or hospitality must be modest, infrequent, and business-related. Cash or cash equivalents are strictly prohibited. All gifts must be declared to management and recorded.

7. Dealings with Suppliers and Contractors

All suppliers of fire and occupational safety equipment must be selected through fair, transparent, and competitive processes. Bribes, kickbacks, or conflicts of interest involving suppliers are prohibited.

8. Reporting and Whistleblowing

Any suspected corruption or bribery must be reported to management or the designated compliance officer. Reports may be made confidentially without fear of retaliation.
(email ict@hazardsafetys.com)

9. Disciplinary Action

Violation of this Policy may result in disciplinary action up to and including termination of employment or contracts, and may be reported to law enforcement authorities.

All functional areas in the Hazard control technologies are potential corrupt risk areas. The key areas include:

- Innovation and Commercialization.
- Finance and Accounts.
- Human Resource and Administration.
- Supply Chain Management.
- Corporate Communication.
- Information Communication Technology.

11. ROLES AND RESPONSIBILITIES

11.1 Responsibilities of the Director

The Director oversees policy setting, strategies approval, budgetary allocation, and oversight role through the Audit Committee for promoting integrity.

11.2 Responsibilities of the members of the Staff

All staff must:

- Comply with the requirements of this policy.
- Be aware of their individual responsibility under this policy.
- Act in a professional manner (with skill, care, diligence, honesty, confidentiality, integrity and impartiality)
- Comply with all the legal requirements and policies of the Hazard control technologies.
- Avoid wastage or misuse of company resources.
- Report any corrupt or fraudulent activity coming to their attention.

11.3 Responsibilities of the members of the Public

Members of the public and customers should report all cases of corruption by tHazard control technologies staff by way of letters, e-mails, contact form, telephone calls, or suggestion boxes.

12. HOW TO REPORT CORRUPTION INTERNALLY AND EXTERNALLY

12.1 Internal Reporting

Any member of staff who detects, experiences, or observes a fraudulent act shall report it through the following avenues:

a. Written or verbal report to the Bribery and Corruption Prevention Committee.
b. Via email to the CEO.
c. Verbal or written report to the Internal Audit Department or any other manager in t Hazard control technologies
d. Post complaints in the suggestion boxes.
e. Written or verbal report to the Integrity Officers.

In the rare case that a report made is not addressed internally, the staff can choose to report externally.

12.2 External Reporting

External reporting on corruption will be channeled through: -

- EACC.
- The Kenya Police.
- Commissioner of Administrative Justice.

13. CONFIDENTIALITY

The information reported regarding corruption malpractices to the Hazard control technologies shall be treated with utmost confidentiality. All staff members mandated to handle corruption reporting shall treat associated information with confidentiality.

14. HANDLING OF CORRUPTION CASES

Corruption cases will be dealt with fairly, promptly, expeditiously and within the law.

15. PROTECTION OF WHISTLEBLOWERS

The Hazard control technologies will ensure confidentiality and protection of the identity and safety of persons making corruption disclosure to the Hazard control technologies as stipulated under the Witness Protection Act, 2006 and Hazard control technologies Whistleblower Policy.

16. INVESTIGATION

To ascertain the authenticity of evidence or information received regarding corruption, the Hazard control technologies will use both external and internal investigation mechanisms.

For internal mechanisms, a competent team will be formed comprising integrity officers and the Corruption Prevention Committee. The nature and seriousness of any fraudulent or corrupt activity will determine the nature of the investigation adopted, the level of resources employed and the involvement of collaborating agencies.

Hazard control technologies will ensure investigations are conducted with a lot of confidentiality, proportionality, timeliness, adherence to evidence, objectivity, fairness, and transparency.

In circumstances where a case requires external investigation, the board of directors will guide on the external investigator to use. The Hazard control technologies will fully cooperate with the external investigators.

17. DISCIPLINARY

Disciplinary action shall be carried out to any member of the Hazard control technologies found to have committed an offence contrary to the provisions of this policy. Cases will be handled with absolute procedural correctness and adherence to all policies and procedures. This will prevent cases from being unresolved due to a procedural technicality.

The disciplinary action shall be in accordance with: -

- Hazard control technologies HR Policies.
- Anti-Corruption and Economic Crimes Act 2003.
- Public Officers Ethics Act, 2003.
- Employment Act, 2007.
- Any other relevant law

18. TRAINING AND AWARENESS

The Management of the Hazard control technologies commit itself to continuously sensitize and train staff on matters of ethics and integrity. This will be implemented through issuance of resources to the staff as well as planning the sensitization and trainings in the annual workplans and budget.

19. MANAGEMENT / IMPLEMENTATION HAZARD CONTROL TECHNOLOGIES

The Chief Executive Officer will oversee the implementation of this policy through the Bribery and Corruption Prevention Committees and the integrity assurance officers.

20. REVIEW

This Policy document shall be subject to review at such intervals as the management may deem necessary due to the new developments in corruption perpetuation.

21. Policy Review and Acknowledgement

This Policy shall be reviewed periodically. All employees and representatives must acknowledge and comply with this Policy.
